

```
aruna@EdgeRouter-X-5-Port:~$ sh -c 'sh -c "$(curl -s https://nextdns.io/diag)'"
```

Welcome to NextDNS network diagnostic tool.

This tool will download a small binary to capture latency and routing information regarding the connectivity of your network with NextDNS. In order to perform a traceroute, root permission is required. You may therefore be asked to provide your password for sudo.

The source code of this tool is available at <https://github.com/nextdns/diag>
